TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

FRANCIS S. LORENZ
TREASURER

Dear Friends:

The rising cost of living has made economy in our local and national governments more important than ever before. Although our standard of living has never been higher, taxes and inflation have put a financial squeeze on us all.

We may grumble about an increase in rent, we may be unhappy about the rise in price of a haircut, but nearly everyone expresses the greatest resentment when taxes are raised. The increasing cost of running our government is most apparent in our tax bills.

To prevent these rising taxes, it is the duty of the good public servant to take inventory of the efficiency of the office to which he was appointed or elected.

The reason I bring up these points is to assure you that economy and efficiency is and will continue to be, the course followed in the State Treasurer's office.

A little saving here and a cut corner there will all show up in savings on your tax bills. More efficient operations and money saving improvements are possible in any office, government or business. This office is no exception.

Several months ago I announced that I would make changes for this purpose in the State Treasurer's office. I went to the experts and sought the best research and advice available. I called on the record keeping companies and the bankers to discover what new methods could be used and which electronic data systems would be the most adaptable to replace outdated systems in the Treasurer's office.

I now have the results of these studies and research. Soon the changes now under way in this office will begin to show in more efficient and more rapid results than were possible ever before.

Experts surveyed the space requirements in the Springfield office and have reported on great improvements which can and will be made. Contracts have been signed and the work is scheduled for completion within 90 days. Economy and efficiency will result from these improvements.

A preliminary survey of the manpower requirements has indicated a great deal of belt tightening can be accomplished. It is already apparent that some jobs can be eliminated. A complete survey is now under way.

As your elected State Treasurer, I take a personal pride and satisfaction in doing my job well. I pledge to you that the operation of the State Treasurer's office will be better then it has ever been in the history of the state.

Sincerely,

Francis S. Lorenz

A Summary of the
General Finances of
The State of Illinois

LOVEJOY MONUMENT
Alton, Illinois - Madison County

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

FRANCIS S. LORENZ
TREASURER

Dear Friends:

When I took office last September, I announced a belief that the earnings of state funds held in banks and invested in securities could be improved. I pledged I would try to improve it.

After eight months in office, I am happy to announce that earnings on state funds are now the highest in all history. From September, 1961 through April, 1962, state funds earned $2,122,675.54 in interest on bank deposits and $3,516,854.86 in income from investment in securities.

The total is $612,441.14 more than was earned during the last eight months of my predecessor, Treasurer Lohman, although Mr. Lohman was a far more effective investor than his own predecessors.

On the page facing this letter there is a table showing the earnings of state funds under all State Treasurers since 1949. A study of these figures will show how effectively we have been able to improve the earnings record of the people's tax dollars.

The Treasurer does not decide how state revenue shall be raised, or how it shall be spent. Other authorities will decide how to solve the financial crisis which confronts our state government.

But in the Treasurer's office, by putting every idle dollar to work, we can help replenish our hard-pressed General Revenue Fund. We will continue our efforts to assure that no dollar of the taxpayers' money is lost, wasted or left idle.

Sincerely,

Francis S. Lorenz

EARNINGS OF STATE TREASURY FUNDS
1949 - 1962

TREASURER	INTEREST ON BANK DEPOSITS	INCOME FROM SECURITIES	TOTAL EARNINGS
ORA SMITH 1949 and 1950	$2,258,421.63	$2,772,335.47	$5,030,757.10

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

FRANCIS S. LORENZ
TREASURER

Dear Friends:

Taking care of other people's money may be an exciting and meaningful experience to the people who are doing this vital work, but it will never threaten the popularity of Marshall Dillon and Chester. It is safe to say that all the gold in Fort Knox, if shown on a television program, would create hardly a ripple in the public pulse if it were shown at the same time as "Gunsmoke."

But money is a subject that has interested man ever since man fashioned his first crude coins scores of centuries ago. The money that our ancestors made and used has fascinated mankind down through the ages.

And because of that I am happy to announce that an outstanding collection of old coins and rare paper currency now is on exhibit in the state treasurer's office in Springfield.

The thousands of visitors who pass through the state capital every day are finding it a fascinating exhibit. The collection, loaned to us by the First National Bank of Chicago for this exhibit, includes rare coins dating back to the Greek and Roman empires.

And if ever again you hear someone say something is "as phony as a three dollar bill," you'll have to take it with a grain of salt. The exhibit contains two real three dollar bills. The visitor to the exhibit thus learns to question the authenticity of popular myths.

With this display, I am inaugurating a policy of trying to make the state treasurer's office a place of more than passing interest to visitors to the capital. Next month we will have an exhibit of counterfeit money. We hope that people who view it will henceforth have enough respect for their money to learn how to tell the counterfeit from the genuine article.

In the months ahead, there will be other exhibits that we trust will be of equal interest to visitors to Springfield. As often as possible, these exhibits will deal with money--the part it plays in our lives, the role it has played in our history. Through arrangements made with several large organizations, these exhibits will be put on display at no cost to the taxpayers.

We're not trying to rival "Gunsmoke" at all. We're just trying to make it as interesting as possible for visitors. If you're in Springfield, drop in and take a look. We think you will like it.

Sincerely,

Francis S. Lorenz

*These totals do not include proceeds of checks, drafts and money orders in the process of collection.

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

FRANCIS S. LORENZ
TREASURER

Dear Friends:

On June 30th I completed my 10th month as your state treasurer. I feel it is time I gave an accounting of my stewardship of this office and a projection of what may be expected on September 1, when I will have completed a full year in this office.

I have, in a previous monthly report, presented tables of figures to show you in a concrete fashion just how earnings on state funds have increased to an all time high since I became state treasurer.

If you will bear with me, I would like to present to you still more tables of figures--this time to show you just where these earnings come from and how they have shown an almost steady month-by-month increase.

INTEREST EARNED ON BANK DEPOSITS AND INVESTMENTS

MONTH	INVESTMENTS	BANK INTEREST	TOTAL
September, 1961.	$274,819.29	$259,171.91	$523,991.20
October, 1961.	294,535.49	259,094.92	553,630.41
November, 1961.	462,923.37	259,087.17	722,010.54
December, 1961.	475,489.13	260.677.61	736,166.74
January, 1962.	471,946.56	268,086.11	740,032.67
February, 1962.	464,374.39	270,092.15	734,466.54
March, 1962.	573,900.85	272,593.19	846,494.04
April, 1962.	553,345.21	273,847.44	827,192.65
May, 1962.	534,394.43	374,710.40	809,104.83
June, 1962.	577,947.27	275,421.05	853,368.32
TOTAL	4,683,675.99	2,672,781.95	7,356,457.94
AVERAGE PER MONTH	468,367.59	267,278.19	735,645.79

It is with considerable satisfaction that I thus am able to report to you that the average monthly earnings of funds in the state treasury in my tenure of office is the highest in the history of the state treasurer's office.

That is approximately 40 per cent more than the highest monthly earnings under my predecessor, who brought earnings on state funds to their highest level in history before he resigned to re-enter the field of education.

With only two months to go to complete my first year in office, it is possible to predict that total earnings on treasury funds in that year will be approximately $9 million, or an average of approximately $750,000 a month.

In my first report after I became state treasurer I pledged to you that I would handle your money as safely and wisely as if it were my own and that I would make your money work as hard for you as you work for yourself. I told you that I regard public office as a public trust. As in all the other public offices that I have previously held, I like to think that I am keeping that trust with you.

Sincerely,

Francis S. Lorenz

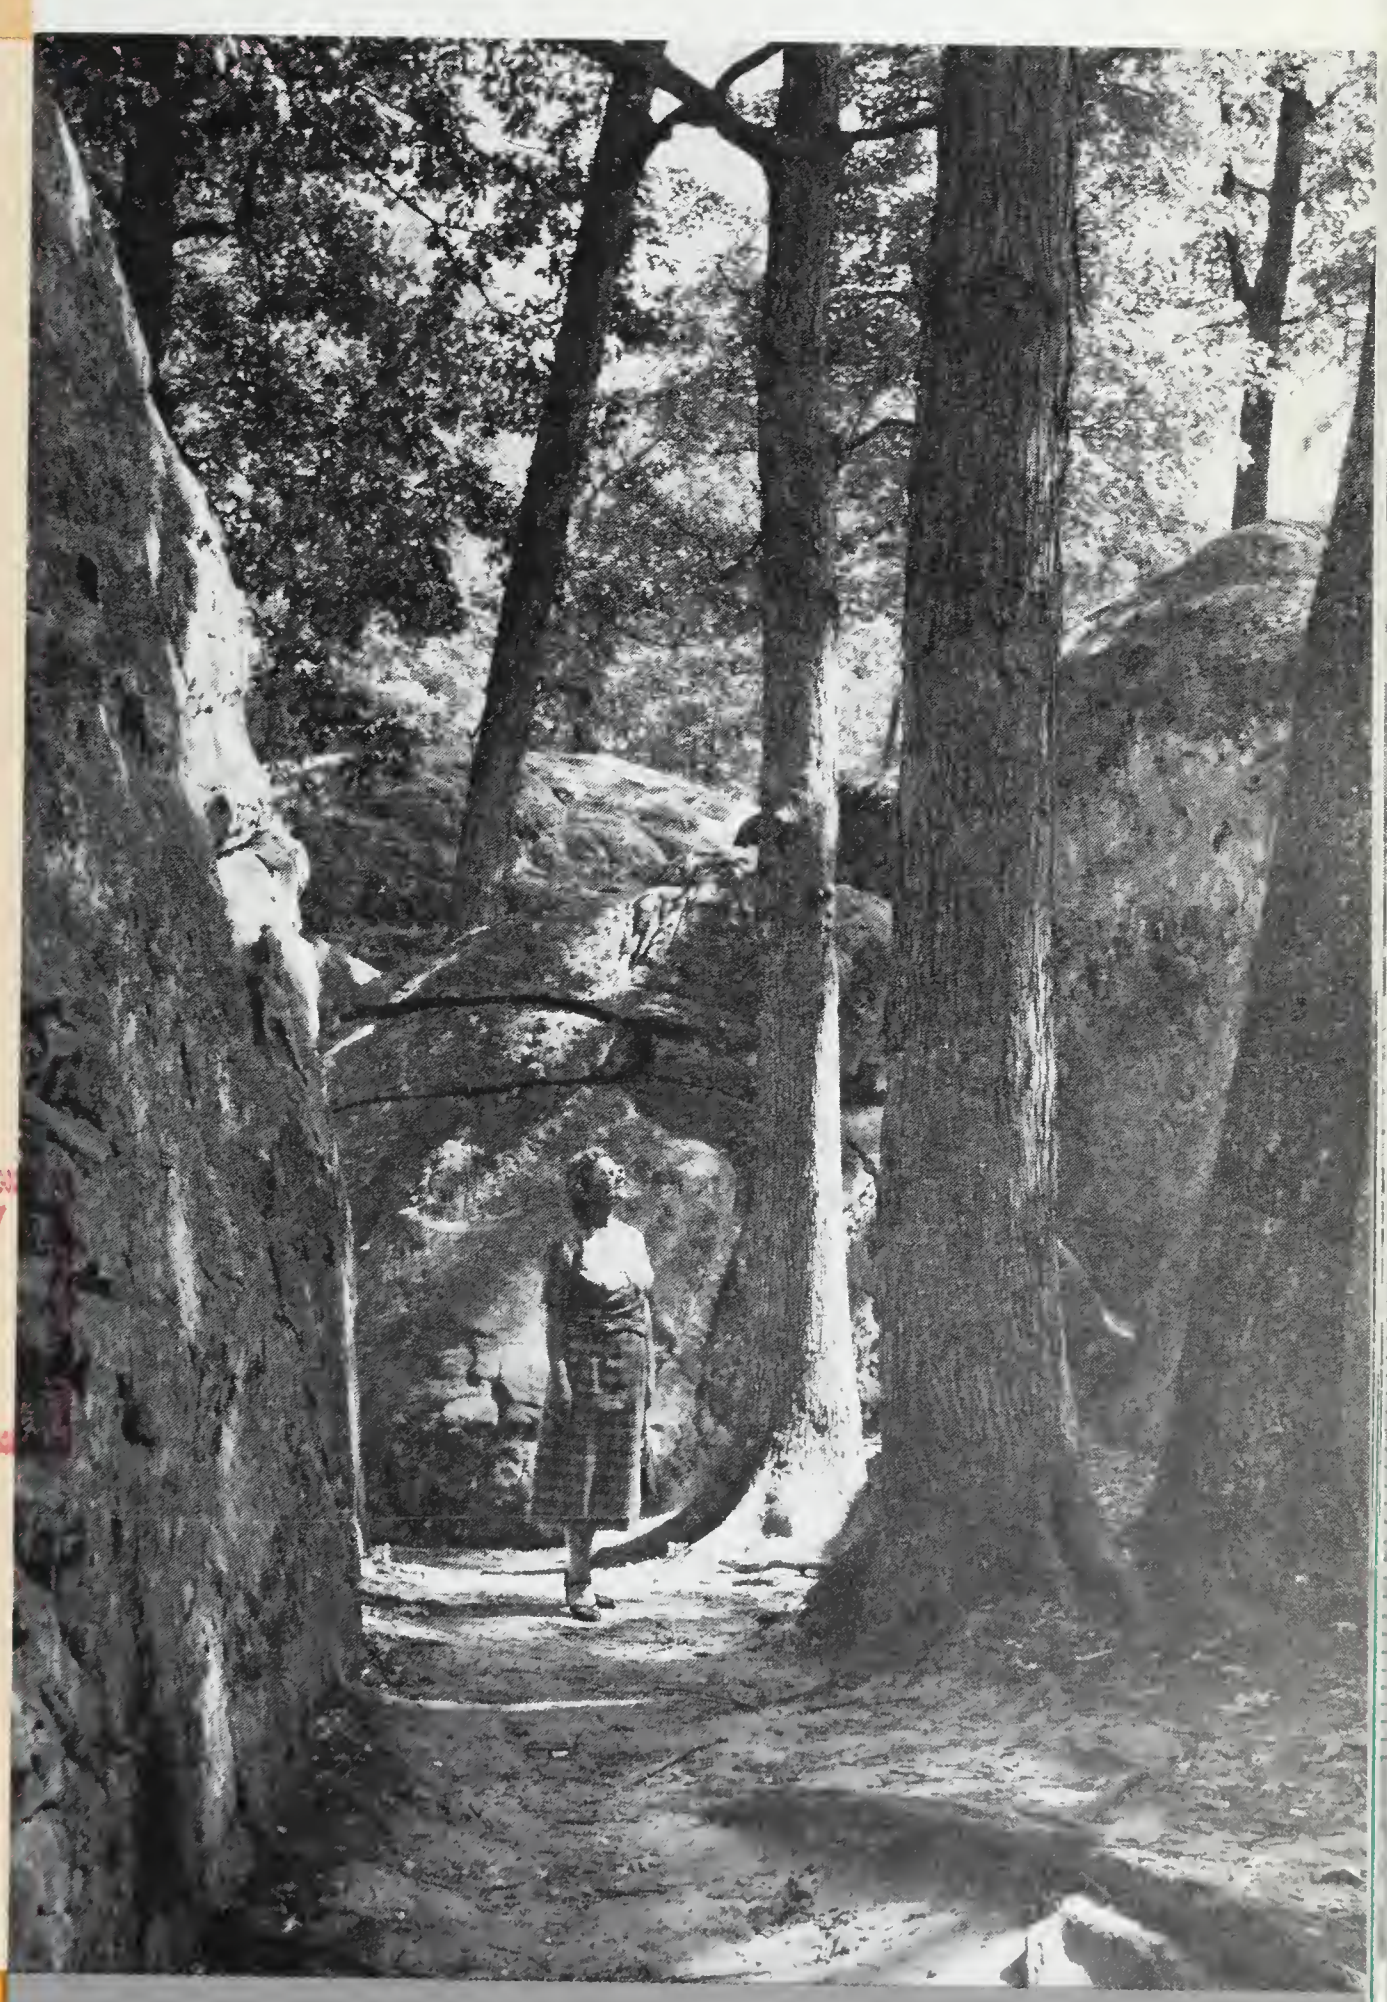
LIBRARY

A Summary of the
General Finances of
The State of Illinois



Dixon Springs State Park
Dixon Springs, Illinois

MAJOR TAX RECEIPTS

RETAILERS' OCCUPATION TAX

Proceeds of Retailers' Occupation Tax is distributed as follows: 5/7 to the General Revenue Fund, which is used for General Purposes, 2/7 to the Common School Fund.

First Seven Months, 1961	First Seven Months, 1962	Month of July, 1961	Month of July, 1962
$173,375,657.46	$198,306,208.20	$24,709,499.36	*$30,730,870.23
		COMMON SCHOOL FUND	$12,416,007.66

MOTOR FUEL TAX

Motor Fuel Tax received by the State, after deducting administrative costs and refunds, is distributed as follows: 35% to Department of Public Works and Buildings (Road Fund), 32% to Municipalities, 11% to Counties over 500,000 in population (Cook County), 12% to all other counties, 10% to Township and Road Districts.

First Seven Months, 1961	First Seven Months, 1962	Month of July, 1961	Month of July, 1962
$92,397,567.66	$95,009,745.50	$14,638,505.10	*$15,153,381.57

MOTOR VEHICLE LICENSE

First Seven Months, 1961	First Seven Months, 1962	Month of July, 1961	Month of July, 1962
$77,658,161.97	$82,306,845.39	$948,306.77	*$1,441,397.04

CIGARETTE TAX

Cigarette Tax is distributed as follows: At the rate of one and one-half mills per cigarette to the General Revenue Fund, which is used for general purposes, one-half mill per cigarette to the Service Recognition Bond, Interest and Retirement Fund, which is used for the payment of the principal of and interest on bonds issued under the Veterans of World War II Bonus Act.

First Seven Months, 1961	First Seven Months, 1962	Month of July, 1961	Month of July, 1962
$25,813,746.39	**$31,332,363.61	$4,146,250.28	*$5,331,894.74

*These totals do not include proceeds of checks, drafts and money orders in the process of collection.

**Inadvertently the cigarette tax for June, 1962 was overstated. The seven months' figures accordingly have been properly adjusted. June, 1962 cigarette tax was $4,360,760.99.

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

FRANCIS S. LORENZ
TREASURER

Dear Friends:

Once again it is my privilege--I might even say my pleasure--to give you a report on my stewardship of State Treasury Funds, which boils down to a report on how this office has been taking care of your money.

It is a pleasure because I am able to report to you that, for the first time in history, earnings on State Treasury Funds in July soared over the million dollar mark.

To be exact, earnings on your money in the State Treasury in July totaled $1,111,716.78.

It brought the average monthly earnings on State Funds since I was sworn in as State Treasurer last Sept. 1 to $769,834.07, another new record.

Earnings have been going up almost every month in the first 10 months I have been your State Treasurer. Since the amount of funds available for investment is by no means at a record high, you may well ask how this is possible.

It has been made possible through prudent investment of the available funds. Formerly, the great bulk of State Treasury Funds lay idle in non-interest bearing bank accounts, or in 30-day call accounts that bore only 1 per cent interest.

Now, 60 per cent of State Treasury Funds in bank accounts are on 90-day call and pay 2½ per cent interest. Only 40 per cent are in 30-day call accounts at 1 per cent. Non-interest bearing accounts have been eliminated.

The record of earnings speaks for itself. The old record of average monthly earnings was the $521,630 set by Joseph D. Lohman. When William G. Stratton was State Treasurer, the monthly average was $184,530; under Warren E. Wright it was $213,896, and under Elmer Hoffman, who had substantially more money to invest than I have had, the average was only $306,907.

I told you when I took office last Sept. 1 that I regard public office as a public trust. I pledged to you that I would safeguard your money as though it were my own. The record shows how well I have kept that pledge.

Indications now are that earnings on State Funds reached a peak level in July, and can be expected to taper off somewhat. My pledge to you now is that for the balance of my tenure as State Treasurer I will strive as I have in the past to make your money work harder for you than ever before.

Sincerely,

Francis S. Lorenz

*These totals do not include proceeds of checks, drafts and money orders in the process of collection.

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

ANCIS S. LORENZ
TREASURER

Dear Friends:

In these reports from month to month I have endeavored to keep you abreast of the changing status of state funds and my custodianship of these funds.

I have been able to report with pride that earnings on state funds in bank accounts and investments have increased to a record level, although the amount available for deposit in banks or for investment is far short of being a record amount.

Some times people tell me, 'Frank, why try so hard? Take it easy. The people aren't interested in saving money. As long as they're getting along they don't want to be bothered.

I happen to think these friends are wrong and, unfortunately, have the wrong slant on government and holding a public office. I regard public office as a public trust, and I believe most other people regard it the same way. I think they expect me to do my best, and to give them periodic reports on what I am doing for them.

In this connection, I would like to bring to your attention that as your State Treasurer I have eliminated interest-free bank accounts for state funds. Every bit of state money, except what is needed for day to day business, is drawing interest all the time.

This is one of the tests of honesty for your State Treasurer. I serve no special interests, no favored groups, and no dishonest cause. I serve only the cause of the people and efficient and honest government.

Sincerely,

Francis S. Lorenz

Francis S. Lorenz

$35,244,017.72	$39,918,422.86	$4,171,480.31	*$4,342,584.36

*These totals do not include proceeds of checks, drafts and money orders in the process of collection.

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

NCIS S. LORENZ
TREASURER

Dear Friends:

Once again the earnings on Illinois treasury funds have continued at a record high level. In September, treasury funds earned $1,160,212.30 for the citizens of Illinois from interest on bank deposits and securities investments.

It was the third month in a row that treasury earnings topped a million dollars. In August, earnings amounted to $1,162,062.13, and in July earnings were $1,111,716.78.

September earnings were down slightly from August, but this is due to the fact that there are but 30 days in September, while the two previous months have 31 days each.

The aggregate totals for the 13 months that have been under my administration are $10,790,449.15, or an average of $830,034.55 a month, another all time record in Illinois history

Higher earnings on treasury funds are always welcome, but they were never more welcome to the State of Illinois than they are now.

Every dollar that is earned through investment of treasury funds means a dollar less has to be raised through taxes. Every cent that can be earned represents a saving to all of us.

The entire staff and particularly William Jorgensen, Chief Revenue Clerk of the State Treasurer's office, deserve the credit for building this record - I salute them.

Sincerely,

Francis S. Lorenz

Francis S. Lorenz
State Treasurer

*These totals do not include proceeds of checks, drafts and money orders in the process of collection.

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

Dear Friends:

This final report to you on my stewardship of the office of State Treasurer is written at a time when all of us are caught up in the holiday spirit.

From the radio and television come music and song that tell us that Christmas will soon be here. In the streets we find the kettles and hear the bells that remind us that this is a time to remember strangers as well as our own families and friends.

It is a time of year when we would all like to forget business and plunge headlong into the pleasures of the holidays-- to amble past the store windows and watch the boys and girls with faces pressed tight against the glass to catch a glimpse of the wonders of Christmas decorations; to visit the department store Santa Clauses, and recapture for a fleeting moment our boyhood faith in jolly old St. Nicholas; to read aloud for children the wonderous words of "The Night Before Christmas."

But into this mood slips the realization that the day to day business of our state, our nation, and our commerce goes on, day after day, never stopping.

And so let me interrupt our holiday reveries briefly to bring you a few statistics.

It is my pleasure to report to you that in the 14 months I have served you as State Treasurer the average monthly earnings on state funds, from bank deposit interest on investment, has climbed to $850,357, the highest monthly average in our history.

Earnings exceeded $1,000,000 for four straight months, another new record that I was able to establish with your help and your support. Never before in Illinois history have state funds been as productive for you as they have been in the last 14 months.

The record could never have been achieved without the loyal support and unflagging cooperation of everyone who works in the State Treasurer office. Commercial bankers and investment bankers have loyally supported my efforts to see to it that the state got the maximum return on its funds. Gov. Kerner and many other public officials throughout the state also have given me their loyal support.

And now I am about to leave office. Next month you will have a new State Treasurer. Let me wish him the best of luck for his administration. Let me wish all of you the best in life, the best in luck.

And in the spirit of the holidays, let me paraphrase Tiny Tim's unforgettable message and say, "God bless you every one."

Sincerely,

Francis S. Lorenz

Francis S. Lorenz

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

WILLIAM J. SCOTT
TREASURER

Dear Friends:

During May, 1963, the earnings from the deposit and investment of State funds reached an all-time record high of $1,666,077. This was an increase of $856,973 over the same month a year ago -- more than double the May, 1962 earnings of $809,104.

The May, 1963 earnings figure reflects completion of the various changes in investment policy which we have instituted.

A year ago, the State of Illinois had, on deposit in Illinois banks, 67 million dollars earning only 1% interest and 100 million dollars earning 2 1/2%.

One of my first acts upon taking office last January was to abolish the practice of depositing State funds at 1%. The entire 67 million dollars has now been re-invested at 2 1/2% and 3 1/8%, along with over 35 million dollars which was transferred from non-interest bearing demand accounts. These shifts alone resulted in additional earnings of over a million and a half dollars a year for the taxpayers of Illinois.

Of even greater importance to the Illinois economy, however, is the fact that the increased bank interest rates enabled us to switch over 200 million dollars of additional State funds into the Illinois banking system.

Today over 379 million dollars of State funds are on deposit in interest bearing bank accounts, compared to 167 million dollars a year ago.

These additional deposits in our Illinois banks will help in the expansion of the economy of our State, bringing job opportunities throughout Illinois.

Sincerely yours,

William J. Scott

William J. Scott
Treasurer of the State of Illinois

TREASURER OF THE STATE OF ILLINOIS
SPRINGFIELD

June 30, 1963

WILLIAM J. SCOTT
TREASURER

Dear Friends:

During the first six months of 1963 the earnings on State of Illinois funds reached an all-time high of $8,272,059, an increase of $3,461,403 over the same six month period last year.

Record bank interest rates of 3.12% enabled us to switch millions of dollars of additional State funds into the Illinois Banking System, bringing the total interest bearing bank deposits to 390 million dollars as of the end of June.

The Treasurer's Office processed more individual warrants during the last six months than at any other similar period in its history. All previous records for efficiency and speed were shattered when the office processed 49,224 warrants in one day to successfully break the back log of relief checks caused by the public aid ceiling controversy.

More inheritance tax investigations were conducted than ever before, and inheritance tax collections for the first six months totaled $18,176,620 -- an increase of $848,658 over the 1962 figure of $17,327,962.

At the same time, the number of people on the Treasurer's payroll has been slashed over 25% resulting in a savings to the taxpayer of over $125,000 a year.

Sincerely yours,

William J. Scott

William J. Scott
Treasurer of the State of Illinois

TREASURER

Dear Friends:

The Treasurer of the State of Illinois has the responsibility for safeguarding over one billion, nine hundred million dollars of cash and securities. The entire financial stability of the State is based on the safety of these funds, and protecting them is the most important job the Treasurer has.

Every effort is being made to provide extra-ordinary security measures. We have initiated a new policy of having a complete audit made by outside accountants every six months. The first of these audits was made shortly after my inauguration in January, and a second audit has just been completed by Arthur Young and Company, Certified Public Accountants.

A special fraud and internal security unit has been set up within the Treasurer's Office, under the direction of former prosecutor J. Waldo Ackerman. Other new security measures include lie detector tests and FBI fingerprint checks for all employees in sensitive positions.

For the first time in the history of the Treasurer's Office, the entire guard force has been given special police training at the State Police School.

As a final security measure, all jobs in the Treasurer's Office have been re-organized to provide for a double assignment whereby no one person has individual access to cash or securities. Despite these extra safety measures, we have slashed the payroll by 25% since taking office last January.

Earnings on State funds also continued to increase, and July earnings totaled $1,589,549, an increase of $477,833 over July, 1962.

Sincerely yours,

William J. Scott

William J. Scott

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

WILLIAM J. SCOTT
TREASURER

Dear Friends:

Earnings on State of Illinois funds continue to increase, with August, 1963, investment income totaling $1,616,426...an increase of $454,364 over August, 1962.

The August, 1963, earnings were also $26,877 higher than those for July, 1963, despite a drop of over six million dollars in the amount of money available for investment.

Record bank interest rates of 3-3/4 percent for a one-year deposit have enabled us to switch another forty million dollars of State funds earmarked for specific future projects into the Illinois banking system. This money was shifted from other investments yielding a smaller return, and brings the total amount of State funds deposited in Illinois banks to 430 million dollars, as compared with 170 million dollars in State bank accounts one year ago.

This increase of over a quarter-billion dollars has been spread throughout the entire state, with deposits in more than eight-hundred Illinois banks.

Generally speaking, for every dollar put into the banking system, about six dollars flow into the state's economy, as the banks loan the money to their customers, who in turn purchase more goods from their suppliers, who in turn hire more people, who in turn deposit their salaries back into their bank accounts...and the cycle starts over again.

Following this theory, our new program for investments should result in at least a billion-and-a-half dollar boost for the state's economy, creating more job opportunities throughout Illinois.

Sincerely yours,

William J. Scott

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

INDIANA UNIVERSITY
NOV 8 1963
LIBRARY

WILLIAM J. SCOTT
TREASURER

Dear Friends:

The September, 1963, earnings on State of Illinois funds were $42,813 higher than those for the previous month, despite a drop of over thirty-five million dollars in the amount of State funds available for investment.

On September 30, 1963, total State funds amounted to $562,031,592, compared with $597,496,474 as of August 31. Nevertheless, investment income during this period increased to $1,659,239 for the month of September, compared with $1,616,426 for the month of August.

Even more dramatic was an increase in monthly earnings for September of this year of nearly one-half million dollars over the 1962 earnings figure for September of $1,160,212.

These increased earnings have been made possible by the record interest rates the State is now obtaining on its bank deposits. We intend to continue to work diligently to make sure the taxpayers get the best possible return on State funds commensurate with sound investment policies.

Sincerely yours,

William J. Scott

William J. Scott
Treasurer of the State of Illinois

STATE OF ILLINOIS

Treasurer's Report

★ ★ ★ ★ ★ ★ ★

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

WILLIAM J. SCOTT
TREASURER

Dear Friends:

During October, increased expenditures by various divisions of the State government caused the State's total available funds to drop more than 12 million dollars, from $562,031,592 on September 30 to $549,538,942 on October 31.

This drop continued a trend which has seen the State's available balances fall more than 54 million dollars in the last three months alone. Twenty million dollars of this drop has been in the General Revenue Fund, out of which the State's payroll is met.

The need for economy in government is vividly dramatized by these figures, and I assure you that we intend to do our part. Since taking office last January, we have slashed the payroll in the Treasurer's Office 25 percent, and at the same time have steadily increased earnings on the State's investments.

Earnings on State of Illinois funds for October, 1963, amounted to $1,582,256, an increase of $467,698 over the earnings figure for October, 1962.

Sincerely yours,

William J. Scott

William J. Scott
Treasurer of the State of Illinois

INDIANA UNIVERSITY

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

WILLIAM J. SCOTT
TREASURER

Dear Friends:

During November, the total State funds on deposit in the Illinois banking system passed the one-half billion dollar mark: an increase of more than 300 million dollars over the amount on deposit in Illinois banks at this time last year.

This tremendous shift of State funds into the banking system from other investment securities has been made possible by the record high interest rates we have negotiated with the 820 Illinois banks which now have State accounts. These rates, which run as high as four percent, are the highest bank interest rates received by any state in the nation, and are greater than the return on U.S. government securities held for the same period of maturity.

As a result, earnings on State funds continue to grow, with November, 1963, earnings totaling $1,620,352...an increase of $578,751 over earnings for the same month last year.

The program serves not only to increase earnings, but to boost the Illinois economy by placing additional State funds in the banking system. It is important to note that these results have been accomplished in the face of a 53 million dollar drop in the total available cash balances of the State since August first of this year.

Sincerely yours,

William J. Scott

William J. Scott
Treasurer of the State of Illinois

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

WILLIAM J. SCOTT
TREASURER

Dear Friends:

1963 was a year of accomplishment in the Treasurer's Office.

Earnings on State funds totaled $17,979,999.46 for the year, an increase of $6,579,165.67 over 1962.

State funds in banks throughout Illinois now earn from 2.75 to 4.0 percent per annum--which rate is the highest in the nation--compared with 1.0 to 2.5 percent a year ago.

The Inheritance Tax Division completed 9,767 examinations of safe deposit boxes in 1963, compared with 8,541 examinations during 1962, and collected $4,860,228.27 more in inheritance taxes than in 1962.

10,362,646 warrants were processed during the year... 1,012,962 more than in 1962. We are proud of our record of processing every warrant within eight hours after we receive it.

This record was achieved on an operating budget which was $100,000 less than the 1962 budget of $936,000, and with a greatly-reduced number of employees. On December 31, 1963, the total number of employees was 1,130, compared with 1,207 a year ago--a reduction of 77. [illegible] record [illegible] staff to the itself, and is a testimonial to the devotion of the staff to the task which has been undertaken.
